

# CYBERSECURITY ANALYST

## APPRENTICESHIP PROGRAM

Employers can enroll their employees in quality cybersecurity training with related instruction expenses paid for by the MAP IT grant. The 12-month registered apprenticeship program includes courses in cybersecurity operations, cybersecurity analysis, computer forensics, system security, and ethical hacking that employees complete online and at their own pace. Learn more at upcoming information sessions. Get in now before the grant sunsets.

TUESDAY

**November 8, 2022 | 8:30 a.m.**
